

Tomáš Stoklasa

Junior AI Engineer

CONTACT

tomasstoklasa02@gmail.com

Brno, Czech Republic

gtm-resume.pages.dev

SKILLS

LLM APIs, function calling

Structured output,
JSON schemas

Prompt injection defence

LLM testing and evaluation

Speech: Whisper, TTS

Python (AI-assisted)

Playwright, web scraping

EDUCATION

Obchodní akademie

Brno, Kotlářská

Business academy, 2nd year
2025 – 2029 (expected)

LANGUAGES

Czech · native

English · B2

AVAILABILITY

Remote, CET

About 4 hours a day
after school

More when needed, also
during school time

PROFILE

Student from Brno who builds AI agents and the tests that keep them honest. I design how the agent works, write the tests and fix what breaks. Claude writes most of the code.

EXPERIENCE

Vertex · own web studio

2026

Founder, one person

- Built and delivered a paid client website: www.galerie-krasy.cz
- Ran cold outreach with an automated pipeline:
1,604 emails, **1** paying client
- Built a checker that blocks bad AI-written emails before sending

PROJECTS

Czech voice agent for tradespeople

Aug 2026

Python · Groq (Llama 3.3 70B) · Whisper · Cartesia

- Answers calls, quotes from a price list and books a visit, using **4** tools
- No tool can change a price: **4 of 4** prompt injection attacks blocked
- The LLM got a phone number wrong, so numbers are now read by code: **5 of 5** correct
- Tested a safety classifier and found it misses fake "system message" attacks

Review of 1,323 AI conversations

Aug 2026

Python · log analysis

- Sorted every message from 116 agent logs and read 282 complaints by hand
- Turned each failure type into a rule that can be checked

Everyday tools

2026

Python

- Website QA across screen widths, AI text classifier with probabilities, model router with fallback, search over ~5,600 notes
